Policy Statement
Bow Valley College is committed to establishing and sustaining a positive and dynamic learning and working environment within our diverse College community. Actions of all learners are expected to exemplify our values of respect, inclusion, creativity, teamwork, and resilience.

Bow Valley College learners must be fit to learn/participate. Learners must not engage in conduct that:

1. Adversely impacts the ability or freedoms of other persons to pursue their studies, research, or work in the College or to participate in the life of the College;
2. Constitutes harassment or discrimination against any member of the College community;
3. Interferes with the operation of the College or causes damage to College property or environment;
4. Is violent, threatening or endangers the health, safety or well-being of others;
5. A reasonable person would see as inappropriate;
6. Violates federal, provincial or municipal laws or this Policy, the associated Procedure or other College policies and procedures; or
7. Contravenes a warning or sanction imposed under this Policy or its associated Procedure or other College policies and procedures.

Learners who fail to abide by the standards of this Policy may be subject to disciplinary action, up to and including withdrawal from the College.

Purpose
This Policy provides a framework to ensure that the College operates in a safe, comfortable, consistent and equitable manner and outlines the general standard of conduct expected of learners at the College.

The College is a diverse and inclusive environment. This Policy is to be read and applied with sensitivity to each learner’s unique personal experience including, but not limited to and where appropriate, experience related to a learner’s culture and history, including Indigenous history and culture.

Scope
This Policy applies to the non-academic conduct of Bow Valley College learners regardless of location or modality, which is determined to have a real and substantial link to the College.

Principal Objectives

1. Affirm that the College community has the right to expect behaviour that follows this Policy.
2. Affirm that learners have the responsibility to behave in accordance with this Policy.
3. Provide the College community with direction on seeking assistance regarding concerns with respect to this Policy.
4. Ensure that this Policy and its associated Procedure are made available and accessible to the College community through appropriate communication methods such as, but not limited to, the employee portal and the College website.
5. Engage in appropriate and consistent procedures for investigation and adjudication that ensure reasonable fairness and due process.
6. Maintain the confidentiality of learner conduct records in accordance with College policy and procedure.
7. Allegations that are made without reasonable justification or that are vexatious or malicious are prohibited and will be addressed according to College policy and procedure.

8. Contribute to a campus atmosphere where this Policy is approached with a wholistic lens that examines the unique personal experience of relevant College community members for the purpose of understanding conduct, understanding the impact of conduct and determining appropriate College action and responses.

9. Work proactively to engage and support learners who demonstrate behaviours that have the potential to impede their own or others’ fitness to learn/participate.

**Compliance**

Members of the College community must know, understand, and comply with College policies, procedures, and associated materials that relate to their position, employment, enrolment or other relationship with the College.

Non-compliance may create risk for the College and will be addressed accordingly through applicable College policies, procedures and contracts.
