Policy Statement
Bow Valley College employs a standardized grading scale to assess learner outcomes and provide information about their learning, certify their achievement and establish appropriate, consistent, and fair academic grading standards.

Purpose
This policy provides guidance to learners, faculty and staff on the systems and expectations regarding assessments, grading and reporting to ensure that it is applied consistently to reflect the academic achievement of learners. Grades provide information to learners about their academic achievement and are used in the determination of learners’ admission, graduation and academic standing within the College.

Scope
This policy applies to all learners enrolled in either credit or non-credit courses and all faculty and staff involved in assessing, awarding and reporting grades.

Principal Objectives
1. To provide the basis for assessing a learner’s academic performance to promote consistency of College wide academic standards across courses, programs and time.
2. To inform learners about the assessment and grading practices of the College and to understand learning outcomes and objectives as stated in individual course outlines.
3. To provide information to external organizations about Bow Valley College’s grading practices and standards in order to evaluate a learner’s academic achievement.

Compliance
Employees, contractors, and learners are responsible for knowing, understanding, and complying with Bow Valley College policies, procedures, and any other attached documentation that relate to their position, employment, or enrolment at the College.

Definitions
Grade:
A defined outcome/value assigned to a learner based on academic achievement in a course or course element.

Grading Scale:
The scale used to define grades and ranges for different levels of academic outcomes.

Credit and Non-Credit courses:
As defined in the Non-Credit Programming Policy #500-2-9.
