Is there anything else you would like your trainer to know about you?

The ACE TESOL Certificate is very intensive. You will be required to do additional work outside of the class, as well as complete 20 hours of practicum work. What other commitments do you have that may create time management challenges during the course? How will you deal with these time management challenges?

The ACE TESOL Certificate requires some knowledge of technology. (Ex: trainees need to type assignments, use Powerpoint for a lesson and access course materials are on a learning management system).

Are you comfortable with using technology?

As in any teacher training program, during the ACE TESOL Certificate course, you will receive criticism on your teaching and will be asked to provide feedback to other candidates. Tell us about a time when you received criticism and how you responded to it. Tell us how you would deliver feedback, both negative and positive, to a peer about their teaching.

How do you respond when you are given a task that requires more information than you have or know? For example, what would you do if you were required to teach a grammar point that you didn't know much about?

Do you have any other questions or concerns about the ACE TESOL Certificate Course?
